Reference: REDISA Waste Tyre Management Plan - Compliance

*The above matter has reference.*

*The Department of Environmental Affairs has provisionally withdrawn the REDISA plan.*

*We confirm that the RMI submitted a Waste Tyre Management Plan, in line with the regulations, to the Department of Environmental Affairs on the 21st December 2011 and thereupon await feedback. The RMI further recommended a consolidated industry approach to Waste Tyre Management, wherein all role players are engaged to prepare a sustainable and workable Plan for South Africa.*

*For now members must remain mindful that Waste Management is imminent, not just here, but worldwide, and must accordingly prepare to comply with a plan going forward.*

*The RMI will advise their members on any further developments.”*

*We trust you find the above in order.*

*Yours faithfully*

Corrie Taljaard  
National Chair TDAFA

Jeff Osborne  
RMI – CEO

Vishal Premall
